CONCENTRATES

Our global team have decades of experience handling base and precious metal concentrates.

With skills ranging across commodity trading, logistics, vessel chartering, site management, blending, WSMD, compliance and risk assessment and operations management, our clients can be assured that we are a trusted partner to work with.

Our team can also leverage our close relationship with CMST to provide you with additional confidence in our service.

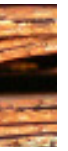

Henry Bath has a long-standing history and strong reputation in the exchange storage market, however we are so much more than just exchange storage. Our portfolio includes a comprehensive supply chain solution including the storage, handling, processing, blending and transportation of mineral concentrates.

We combine strategically located wharf side facilities, extensive team experience and specialised equipment such as the Kleemann mobile impact crusher to provide you with a first class end to end service.

Henry Bath's global concentrates team are delighted to offer a range of additional services to compliment your blending needs, enhancing your options and providing peace of mind that your commodities are in safe hands:

- Shipment tracking
- Import (and export) documentation bulk / TEU's.
- Issuance HC / warehouse receipts
- Report importation (and exportation) of vessels / TEU's
- Stock and pile management
- Monitoring quality of stock in store
- Sequencing and blend plan drafting, based upon client's parameters / importation parameters
- Report blend progression and completion
- Regular meeting in warehouse to review operations/SOP
- Monthly internal stock audit
- Daily operational reporting
- Coverage 24 hours (different time zones staff)

OUR FULL SERVICE CAPABILITY THROUGH HANDLING, LOGISTICS AND STORAGE, WITH BOTH PRIVATE COMMERCIAL CARGO AND EXCHANGE COMMODITIES OFFERS YOU THE BEST OPTIONALITY IN THE MARKET, ALLOWING US TO MINIMISE COSTS, TRANSACTION TIMES AND RISK.

CONFIDENCE IN OUR SERVICE

Our management and security risk controls are continually reviewed to ensure we are offering our client a first class service with peace of mind for all commodity transactions.

Henry Bath are committed to promoting a more secure environment. We are therefore offering our clients an additional option to authenticate our documents via TRAKK, giving you the assurance that when a Henry Bath document relating to title or transfer of ownership is received, its valid.

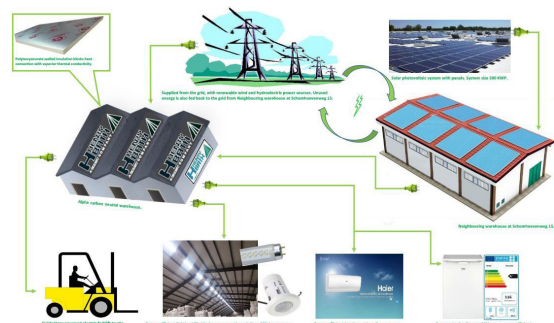

Our Warehouse receipts are recognised by exchanges, banks and insurers as premium documents, assuring the holder of legal title to the underlying goods.

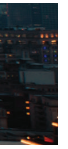

SUSTAINABLE CARBON NEUTRAL 'ALPHA' WAREHOUSE

At Henry Bath we listen to the market to position ourselves correctly to make sure we are the supply chain partner you need. Sustainability and carbon neutrality are one of those ways we are adapting to meet your requirements.

Our Alpha warehouse, has a combined heating and power supply generated by renewable energy, solar, wind and hydro.

We are also working towards carbon neutrality goals and accreditation.

HOW WORKING WITH HENRY BATH AND CMST CAN BENEFIT YOU

Henry Bath, in conjunction with CMST, can offer full service capability including reliable, efficient national and international logistics services.

CMST are China's largest integrated logistics company. They own more than 70 logistics distribution and operational facilities in more than 30 major Chinese ports.

As part of the CMST group, we are able to access the wealth of knowledge and experience that CMST offer as well as the impressive logistical network.

Our integrated operating model avoids unnecessary logistics moves and shortens the communication channels improving efficiency between on shore and offshore China movements.

Our one stop service convenience service improves transaction time, saves workload and gives you more opportunities

CMST CAPABILITIES

- 1st grade international freight forwarding qualification
- FTZ approved warehouse to conduct the supervision system of goods status
- Material Inspection
- Customs clearance
- Local contacts with in depth knowledge and experience
